RUSH — TIME DATED **ADDRESS CORRECTION REQUESTED**

TODAY & TOMORROW

MARCH 27-APRIL 9, 1982

(SFGH continued)

SATURDAY 3

UROLOGY GRAND ROUNDS. Rm. 3A18. 8:30 a.m.

TUESDAY 6

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Topic and speaker to be announced.* Carr Aud. 8:30 a.m.

MEDICINE GRAND ROUNDS: *Urinary Tract Infections.* Donald Kaye, Medical College of Pennsylvania, Phila. Carr Aud. 11:30 a.m.

THURSDAY 1

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Evaluation of Coma, without History.* Roger Simon, Neurol., SFGH. Surg. Amphitheater, Bldg. 1, 3rd fl. 8:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Interactions of Risk Factor in Epidemiology.* Nicholas L. Petrakis, Prev. Med. & Epidem. Carr Aud. 5:15-6:30 p.m.

THURSDAY 8

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Chest Injury.* Arthur Thomas, Surg., SFGH. Surg. Amphitheater, Bldg. 1, 3rd fl. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Peripheral Venous Disease.* Frank Lewis, Surg., SFGH. Carr Aud. 12:30 p.m.

CONTINUING EDUCATION

HEALTH SCIENCES

Oh My Aching Back: The Treatment of Low Back Pain. Mar. 27.

Conversations in the Humanities (Part IV). Mar. 31

The Independent Living Imperative. Fort Mason Center. Apr. 2 & 3.

Cultural Aspects of Food. Apr. 3

Care of the Critically Ill. Apr. 3

Postgraduate Course in General Surgery. Fairmont Hotel. Apr. 15-17.

Cancer Epidemiology (Occupational Medical Rounds). Mission College, Santa Clara. Apr. 21. For further information contact Joseph LaDou, MD, (408) 773-9900.

Advances in Pediatrics. Mark Hopkins Hotel. Apr. 22-24.

Basic Diving Medicine. Fresno. May 3-9. For further information, contact Vincent S. O'Hara, MD, VAMC, Fresno, (209) 225-6100, x345.

Advances in Infectious Diseases. Holiday Inn Golden Gateway. May 6 & 7.

For further information call x4251, unless otherwise noted.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* which will cover the period April 10-23, will be **Tuesday, March 30, 11 a.m.** Please send your copy to Allen Balderson, News & Public Informatioh Services, 532 Parnassus Ave., x1541 or x2557.

More than 100 UCSF employees will be honored at ceremonies presenting the annual Chancellor's Award for University Service, Friday, April 2 from 3 to 5 p.m. in the Millberry Union Gym.

The campus community is invited to join Chancellor Sooy in honoring those employees who have completed 25 years of service and those who retired in 1981. A reception will immediately follow the presentation of certificates of appreciation.

The University Service Awards were begun in 1954. For further information on the ceremony or the recipients call x4318.

A new Home-Care Parenteral Nutrition Services has been added to the School of Pharmacy. Established and supervised by Kent Meilich, PharmD, the service will manufacture hyperalimentation solutions for patient home use.

Patients will first have their condition assessed in the hospital. The appropriate parenteral nutrition solution for home use will then be manufactured according to the Home-Care Program's specifications. A two-week supply will be given to the patient. A physician, home-care nurse and pharmacist will train the patient to administer the solution at home. Those patients with catheters at their homes may elect to receive nutrition at night.

This new self-supporting service also will deliver additional supplies of the solution to the patient every week. A 24-hour call-in service for emergency supplies and other kinds of problems has also been set up. The progress of the patients will be followed by the members of the home-care team.

The UC Regents have approved the naming of cancer treatment facilities in the UCSF Hospitals as the "Walter A. Haas, Jr. Radiation Oncology Pavilion."

The facility, which is located on the ground floor of the new building, is named after Haas, in appreciation for the commitment of half a million dollars by the Evelyn and Walter A. Haas, Jr., Fund towards its construction.

The first patients were treated in mid-March in the new department, according to Theodore M. Phillips, MD, chair of the Department of Radiation Oncology. When completely installed, it will be the most modern radiation oncology unit in the western U.S., Phillips declared.

A unique feature will include the use of CAT scanning for radiotherapy treatment planning. New treatments also will include isotopic immunotherapy, radiation sensitizers and hyperthermia.

The first clinical unit to open as part of the UCSF hospital modernization project, the pavilion is expected to be in full operation by July, 1982, and is expected to treat 2,000 patients a year, Phillips said. A formal dedication in the form of a scientific symposium will be held in the fall.

Walter A. Haas, Jr., for whom the pavilion is named, is a well known business and civic leader in the San Francisco Bay Area. A noted philanthropist, he has supported a number of UCSF programs, including the Child Care Study Center and the Infant/Parent Program at SFGH started by the late Selma Fraiberg.

The UCSF Department of Radiation Oncology, of which the Haas Pavilion is a part, includes a large research, teaching and treatment program, not only on this campus, but also in the new UCSF Radiation Oncology Research Laboratory, located at CED on Folsom Street, and at the Lawrence Berkeley Laboratory. Clinical treatment and training also occur in affiliated programs at Mount Zion Hospital and Medical Center and the Ralph K. Davies Medical Center, S.F.

NEWS BRIEFS

Nominations are now being accepted for the Chancellor's Public Service Awards. UCSF faculty, staff and students who have performed outstanding service to the campus and/or the community are eligible.

Nominations are for three awards, two of which are the "Thomas N. Burbridge" and the "Edison Uno" awards. The awards are for $500 each, with an additional $100 given by the UCSF Black Caucus for the Burbridge Award.

Candidates for each award should demonstrate outstanding pubiic service beyond the scope of their normal job duties. Burbridge Award candidates should demonstrate particular contributions to equal education employment opportunity and to social justice, and should reflect the impact made by Burbridge on the Black and other minority communities.

Uno Award candidates should be involved in a minimum of two unrelated public service activities working within established social, political, and civic groups to bring about social change.

The awards will be presented on Wednesday, May 26. Nominations are due in the Chancellor's Office, S 126 by Monday, April 19. For further information call x2401.

Henry R. Bourne, MD, professor of Medicine and Pharmacology, has been awardthe 1982 Burroughs Wellcome Clinical Pharmacology Award.

The five-year $200,000 award is given to "support a scholar's research, teaching and training programs in clinical pharmacology."

Bourne joined the UCSF faculty in 1970. He holds an appointment in both the schools of Medicine and Pharmacy and is chief of the Division of Clinical Pharmacology. His research has focused upon elucidating the molecular mechanisms by which drugs and hormones regulate normal cell functions, as well as the molecular basis of the inherited disease pseudohypoparathryoidism, a dysfunction of the parathyroid gland.

All University Charter Day will take place on Thursday, April 15 in the Greek Theater, UC-Berkeley, at 2 p.m. The Honorable Philip C. Habib, presidential envoy to the Middle East, will give the principal address.

Faculty, students and staff are invited to attend. For further information on tickets and academic regalia, etc., please contact Diane Dillon, x1881 by Wednesday. March 31.

Nominations are being accepted for the J. Elliott Royer Award, presented annually by UCSF to the San Francisco or East Bay physician who, during the previous year, "shall have made the most significant contribution to psychiatry and neurology."

The award, which includes a cash grant of $15,000, was established under an endowment from the late Dr. Royer's estate. The award is made by the UC Regents upon recommendation of a committee consisting of the UCSF dean and two faculty members of the School of Medicine and presidents of the S.F. Medical Society and the Alameda-Contra Costa Medical Association.

Nomination procedures are: 1) letters of recommendation, setting forth in detail the reasons for the nomination, should be submitted by Friday, June 4, 1982, to the Royer Committee, Office of the Dean, School of Medicine, S 224; 2) nominees must be actively engaged in the practice of medicine in S.F., Contra Costa, or Alameda County, but not necessarily on a full-time basis.

Ralph J. Greenspan, a postdoctoral fellow in Neurobiology, has been selected to receive a two-year, $25,000 Sloan Research Fellowship. He is one of 7 UC fellows elected this year and among 88 outstanding young scientists and economists selected at 50 universities, colleges and research institutions in the U.S. and Canada.

Greenspan is presently in the laboratory of Louis Reichardt and is studying how mutations affect the nervous system, and the genetics of neural proteins.

The fellows were selected from among hundreds of highly qualified nominees on the basis of their exceptional promise to contribute to the advancement of knowledge in the early stages of their careers.

The Animal Care Facility at the VAMC, S.F., has been awarded a provisional accreditation from the American Association for Accreditation of Laboratory Animal Care. Full accreditation is expected within 10 months. The association conducted their review in December, 1981.

In addition, construction will be starting soon to enlarge this facility which is presently managed by biologist Lon D. Bright.

Leonard Pearlin, PhD, has been appointed the new director of Human Development and Aging, and Morton Lieberman, PhD, associate director.

Pearlin replaces Marjorie Fiske, who retired as director to devote more time to research and teaching. He comes to UCSF after conducting research for nearly 25 years at the National Institute of Mental Health. During the last decade, Pearlin's work has focused on social stresses and the ways people cope with them.

Lieberman comes to UCSF after 25 years as professor of Psychology and Human Development at the University of Chicago. He is an international expert on aging and its link with mental illness.

The Human Development and Aging Program, which started as a geriatric research project in 1958, now focuses its studies on the changes which life impresses on people as they go from young adulthood to old age. The program, which combines faculty in anthropology, psychology and sociology, also conducts PhD programs in human development and aging.

NIH has revised the instructions for submission of grant proposals. All copies now are to bear the principal investigator's signature. Only one copy needs an original signature; the six additional copies may be photo copies. In addition, all copies are to be single-sided and unbound. These revised instructions were effective January 29.

An international workshop on uses of the antibiotic, rifampin, will be held Monday and Tuesday, April 5 and 6 at the Hyatt on Union Square.

One hundred and twenty-five physicians from the U.S. and abroad have been invited to attend the program. Merle Sande, MD, chief of the Medical Service at SFGH, is program chair. Other UCSF speakers include Julius Schachter, MD, professor of Laboratory Medicine, Epidemiology and International Health; and Joel Ernst, MD, fellow, Infectious Diseases at SFGH.

The purpose of the workshop, according to Sande, is to share information on the many experimental uses of rifampin, which was originally developed to fight TB. The drug now appears to be effective in the treatment of such diverse diseases as leprosy, meningitis, influenza, chlamydial, staphylococcal and fungal infections, chancroid diseases and urinary tract infections.

It is hoped that from the workshop will come a set of recommendations to the Food and Drug Administration on licensing the drug for new uses.

Extended Programs in Medical Education is again offering workshops to improve writing skills. Entitled, "Effective Scientific Writing: The Journal Article," the workshops involve writing or revising an article based on the individual's own work.

Classes remaining are Thursdays, April 15 to June 3, 4 to 6 p.m.; and Wednesdays, June 2 to July 21, 4 to 6 p.m.

The eight-week course is $250 and is limited to 10 participants. For further information contact Sara Borel at x4251 or course instructor Adela Karliner at 753-2012.

The Willie Perez Lecturer this year is Robert Volpe, MD, physician-in-chief of the Wellesley Hospital and professor in the Department of Medicine at the University of Toronto. Volpe will present the second part of Medicine Grand Rounds on Wednesday, April 7 in Cole Hall at 11:15 a.m. He will talk on "Thyroiditis."

In addition, Volpe will present Endocrine Grand Rounds that same morning at 9 a.m. in the Langley Porter Auditorium when he lectures on "Pathogenesis of Graves' Disease." Volpe also will be making informal rounds at the Thyroid Clinic at UCSF and presenting VAMC's Endocrine Metabolism Conference the following day at 12:30 p.m.

Perez was a Berlin internist and dermatologist who lived in New York and San Francisco. He was a frequent visitor to UCSF and befriended several faculty. He died in 1977. In his will he donated considerable sums to UCSF for research and lectureships in the Department of Medicine, the Endocrine Unit, Vascular Surgery and Neurology.

A 10-hour Survey Course in Human Sexuality will be held Friday and Saturday, May 14 and 15 in the Langley Porter Auditorium.

The course is sponsored by Continuing Education in Mental Health and Behavioral Science and the Human Sexuality Program and features presentations by Evalyn Gendel, MD, director, UCSF's Human Sexuality Program; and Emmett J. Bonner, PhD, assistant clinical professor of Psychiatry.

Enrollment is limited to 50 people. Preregistration is advised. Tuition is $65 before May 1; and $75 after May 1. For further information contact Aveleen Blumenstock, x77-256 or x77-554.

This course meets California re-licensure requirements of psychologists, social workers and marriage, family and child counselors, as well as satisfying initial licensure requirements for psychologists and social workers.

Registration for Millberry Union's spring classes starts Monday, April 5 for UCSF students and Millberry Union members. Registration for UCSF employees and the neighborhood starts April 6.

Classes include self-development, fitness and health, programs for senior members of the community, infant aquatics, kindergym, Tai Chi, outdoor actvities, massage workshops, handwriting analysis and many more.

Register at the Millberry Union Central Desk, 8 a.m. to 2 p.m. and 4 to 7 p.m. Individuals may register through the first week of class at the Athletic Control Desk, 8 a.m. to 8 p.m., if space is available. For further information call x1800.

The Moffitt Cafeteria has extended hours to 7:30 p.m. daily, in order to accommodate the nursing staff as well as any late night visitors. Mealtimes are: breakfast, 6:30 to 10:30 a.m.; lunch, 10:45 a.m. to 2 p.m.; and dinner, 3:45 to 7:30 p.m.

HONORS & AWARDS

Emil A. Tanagho, chair and **Richard Schmidt,** assistant professor, both Urology: First prize for "New Therapeutic Aids in Surgery" from the Western Section of the American Urological Association for their research presentation, "Potential Use of Synthetic Absorbable Mesh as a Patch Graft in Urological Surgery." **Jack W. McAninch,** chief, Urology, SFGH and associate professor, Urology: First prize in Joseph McCarthy Essay Contest from same association for his paper "Renal Trauma: Kidney Preservation through Improved Vascular Control — A Refined Approach."

Virginia L. Ernster, assistant professor, Epidemiology, Epidemiology & International Health: Member, Biometry & Epidemiology Contract Review Committee, National Cancer Institute.

Ralph R. Cavalieri, head, Nuclear Medicine Service, VAMC; professor, Medicine: Member, board of directors, American Thyroid Association.

Zena Werb, associate professor, Laboratory of Radiobiology, Environmental Health & Radiology: R.R. Bensley Memorial Lecturer, Apr. 5 at 95th annual meeting of the American Association of Anatomists.

Harold H. Lindner, clinical professor Surgery & Topographical Anatomy: Invited lecturer, University of Zagreb, Yugoslavia, on the anatomy of inguinal hernia, May 7.

VISITORS

Meny Bergel, director, Institute of Leprosy Research, Rosario, Argentina: Visited Ali Bin Ibrahim, Microbiology & Immunology and the Proctor Foundation as a Fulbright Professor.

APPOINTMENTS

Richard C. Barnett, associate clinical professor and **Joseph C. Barbaccia,** professor, both Family & Community Medicine: Appointed vice-chairs of Family & Community Medicine. The first permanent chair of this division as of January 18 is **David Werdegar.**

The Publications Department has designed a UCSF version of a number of items used by departments on campus, including portfolios, binders for proposals or meetings, mailing labels, name tags, invitations, note cards and business cards.

Cost will be minimal if campus orders make it possible to print these items in large enough quantities to get bulk rates.

If you are interested in seeing a sample of these materials or making an order, call x2234.

The Riegelman Memorial Symposium will be held Thursday to Saturday, April 22 to 24 at the Golden Gateway Holiday Inn.

The session, entitled "Pharmacokinetics: A Modern View," is sponsored by the School of Pharmacy to honor its former associate dean for research services, Sidney Riegelman, an internationally respected pharmaceutical scientist who died last April.

Gerhard Levy, Distinguished Professor from the School of Pharmacy, State University of New York at Buffalo, will chair the meetings.

Twenty-eight of the most respected and internationally recognized pharmaceutical scientists from Europe, Japan and the U.S. will present an overview of pharmacokinetics — a discipline of which Riegelman was one of the founders.

Arthur Hull Hayes, Jr., MD, commissioner of the U.S. Food and Drug Administration, will speak at the banquet that will pay tribute to Riegelman the first evening of the meetings.

Persons interested in attending the meetings should call x1680. Papers and abstracts presented will be published in honor of Riegelman.

There will be a steam shutdown on Friday, April 2, 8 p.m. to Saturday, April 3, 2 a.m., in order to install additional equipment in the Power Plant.

This six-hour interruption will affect high and medium pressure steam to Moffitt and Long hospitals and the Medical Sciences building. All steam service, including low pressure steam, will be interrupted to Langley Porter, the Ambulatory Care Center, Clinical Sciences building, Millberry Union, UC Hospital and the Laboratory of Radiobiology.

For further information contact V. Carrick or R. Piccinini, x4066 or R. Fonti, x1224.

The CVRI has received a donation of more than $1,100 from the "Friends of Irvin L. Wallace" to help fund completion of their laboratory and seminar room.

Irvin L. Wallace, a principal administrative analyst in the Capital Improvements Planning group, Office of Budget, Analysis and Planning, UC-Systemwide, passed away in November of last year. The fund was established this year in his memory.

IBM displaywriter training is now available at UCSF through TemPositions, a private training and placement agency. Training is available individually or as a class, if requested by a group of departments. Supervisors are asked to contact Jean Lamei, Personnel Department, x1645, if there is a need for such employee training in your department or division.
